Woman suffragists are of several kinds. In England, before the war mercifully inter-

vened, they sought to obtain the vote by violent means. They burned buildings; assaulted

barmless politicians; went on hunger strikes in prisons, and, generally speaking, made them-

selves objectionable to the community at large. Their idea was, and it was probably correct, that they could only wring the vote from the tyrant man by violence, if not force.

The Suffrage agitation in the United States has proceeded along more peaceful lines, with

the result that, so far, twelve States of the Union have granted women the vote. The other

States will follow in due course without being assisted to do so by any other means than

education and argument. And this photoplay, "Your Girl and Mine," in six parts, to be pre-

sented at the Colonial Theater, 927 Pennsylvania avenue, from tomorrow (Monday) to Sat-

urday, inclusive, is an argument in highly dramatic form—so Jramatic that the argument be-
